Project Edelweiss - Information Memorandum

This Information Memorandum has been prepared on behalf of the shareholders of Alpine Precision Components AG (the Company) for a limited number of parties considering the acquisition of a majority stake. The Company is owned by the Hosmatter family, who intend to sell 70% of the shares and retain 30% alongside management.

1. Investment highlights

The Company is a Swiss precision machining specialist founded in 1987 in Thun. It supplies machined housings, shafts and fluid-control parts to automotive, rail and medical technology customers in Europe.

Revenue reached CHF 148.6 million in FY2025, up from CHF 131.0 million in FY2024, with adjusted EBITDA of CHF 26.8 million.

Order backlog stood at CHF 96.4 million on 30 September 2025, equivalent to roughly eight months of revenue.

2. Business overview

The Company operates two plants: the headquarters plant in Thun, Switzerland, and a plant in Brno, Czech Republic, held through Alpine Precision CZ s.r.o.. The Brno plant opened in 2014 and focuses on high-volume turned parts.

At the end of FY2025 the Company employed 612 people, of whom 418 work in Thun and 194 in Brno.

End markets in FY2025 were automotive (58% of revenue), rail (19%), medical technology (14%) and general industry (9%). Electric-vehicle drivetrain parts represent 41% of automotive revenue.

Revenue by end market, FY2025 (share of revenue)

End market	Share
Automotive	58%
Rail	19%
Medical technology	14%
General industry	9%

3. Customers

The Company serves around 140 active customers. The three largest are Brenntal Automotive GmbH, Nordwind Rail Systems AB and Valtrona Medical Systems SA. The relationship with Brenntal Automotive dates back to 2009.

Brenntal Automotive has nominated the Company as single source for the motor housing of its EV-7 electric drive platform, with start of production planned for Q2 2026.

4. Operations

The Thun plant runs 74 CNC machining centres in a three-shift pattern. Overall equipment effectiveness was 78% in FY2025 and the scrap rate was 1.8%.

A new five-axis machining line for EV-7 housings is planned for FY2027 at a cost of CHF 6.4 million.

5. Management

The Company is led by Chief Executive Officer Corinne Vasseli, who joined in 2016, Chief Financial Officer Tobias Arnhold, who joined in 2019, and Chief Operating Officer Lukas Imfeld, who joined in 2021. The board is chaired by Reto Wyssbrod.

Management intends to reinvest part of its proceeds and hold a combined 8% of the shares after closing.

6. Process

Non-binding offers are requested by 14 November 2025. Selected bidders will receive access to the virtual data room and management sessions in Thun.

Enquiries should be addressed to the sell-side adviser at edelweiss@hosmatter-advisory.example or +41 31 555 02 40.
