## Management presentation - October 2025

Our strategy for 2026 to 2028 rests on three priorities: winning EV drivetrain programmes, growing the medical technology line in Thun, and lifting Brno utilisation above 85%.

Brno utilisation was 71% in FY2025.

## Budget FY2026

The board approved a FY2026 budget of CHF 151.0 million revenue and CHF 26.3 million EBITDA. The budget assumes EV-7 start of production in Q2 2026.

*Budget FY2026 versus actual FY2025 (CHF million)*

| Line | FY2025 actual | FY2026 budget |
|---|---|---|
| Revenue | 142.3 | 151.0 |
| EBITDA | 25.1 | 26.3 |
| Capex | 9.1 | 9.8 |

## Medical technology

The medical technology line in Thun is certified to ISO 13485 and produced parts for 23 customers in FY2025. Valtrona Medical Systems is the largest of them.

Management targets medical technology revenue of CHF 26 million by FY2028.

## People

Voluntary staff turnover was 6.4% in FY2025. The Company trains 38 apprentices across both sites.
